### 1.0 Executive Summary

## Introduction

Grutzen Watches' is a start-up watch producer and distribution company. Its strategy is to serve the upscale niche markets of the watch industry. It will capitalize on the German engineering and manufacturing used to build the watches. There are many untapped potential markets within this industry that desire high-quality, stylish goods, but do not think they can afford them or do not know where to purchase them.

It is the firm's intention to build and export its products to the United States and to make Grutzen Watches the number one selling European watch in the Western U.S. To do this the company's long-term goals are to to achieve a $20 \%$ market share in the U.S, build brand image and brand equity through marketing, achieve a sustainable 55\% profit margin, and eventually produce luxury watches in addition to the initial, moderately-priced line.

## The Company

Grutzen Watches is a privately-held international corporation. Production takes place in Germany and sales and marketing are focused on the United States-California-for the shortterm future.

Ownership is divided among three principal individuals who are putting up the initial investment. These include: Franz Grutzen-head of production department, Henry Winster-head of American division and sales and marketing division, and Walter Young-vice president of American division.

The German factory is located at 210 Autoroute 17, Frankfurt, Germany. The factory is 1,000 square meters and should be large enough for the first three years of the company's growth. The watches will be shipped to and distributed from Henry Winster's house at 343 Palm Avenue in Los Angeles, California. The watches will be initially sold in upscale watch stores in Los Angeles and San Francisco.

Grutzen's sales force will consist of Henry Winster and two freelancing sales representatives. Order processing will be achieved through communication between Henry Winster in the U.S. and Franz Grutzen in Germany.

## The Products

The initial product line will be elegant analog watches with sporting characteristics, able to be used to depths of 100 meters under water. The company plans to release two versions, the "sport" watch and the "night" watch.

The pricing strategy will be to initially undercut our main competitors by $10 \%$, using a market penetration strategy. Then, pricing will be adjusted to be directly competitive with the other major competitors. The price per watch is expected to be around $\$ 100-\$ 200$.

## The Market

Entry into the high-end watch industry comes as a propious time. Over the past two years, the purchase of mid-level and high-level European watches has increased by 50 percent in the U.S. and this trend is expected to continue.

One of the most important recent trends is that potential watch buyers are willing to spend higher amounts on watches because of the enhanced image appeal. Therefore, a company that can build a substantial brand image in this industry gains a significant competitive advantage. It is the aim of Grutzen to capitalize on its high quality and reasonable price while pursuing the innovative styles necessary for brand building.

## Financial Considerations

The company's start up costs will be $\sim \$ 226,000$. Owners equity will be provide $\$ 171,000$,

## Grutzen Watches

$\$ 30,000$ will consist of short-term borrowing, and the rest will be long-term loans. The majority of the start-up costs will consist of rent, research and development, initial inventory, and a strong cash account.

The Break-even Analysis shows Grutzen Watches will be able to make a steady profit by the second year. The break-even point is only $\$ 12,000$ per month, while projected sales are three to five (or more) times that figure.

### 2.3 Company Locations and Facilities

- The German factory is located at 210 Autoroute 17, Frankfurt, Germany.
- The factory is 1000 square meters and should be large enough for the first three years of the company's growth.
- The watches will be shipped to and distributed from Henry Winster's house at 343 Palm Avenue in Los Angeles, California.
- The watches will be initially sold in upscale watch stores in Los Angeles and San Francisco.

### 3.0 Products

The watches will be mid-level all-around high-quality sports watches.
The price will be very competitive: $\$ 100-\$ 200$.

## Grutzen Watches

### 3.1 Product Description

Grutzen Watches are elegant analog watches with sporting characteristics, able to be used to depths of 100 meters under water.

- The "sport" watch will be made of a durable steel and hard rubber combination that will provide both style and durability.
- The "night" watch will be all black including the face with minimal white writing for the numbers on the face and will feature white hands as well.

### 3.2 Competitive Comparison

Grutzen Watches will have the following sustainable competitive advantages:

1. German technology, experience, proficiency, and reputation.
2. High quality at a moderate price.
3. Elegant and ergonomic styling.
4. Devoted German work force.
5. American marketing skills.

### 3.3 Sales Literature

Grutzen Watches will use advertising, public relations, and sales programs to make the public aware of the watches.

1. Advertisements and public relations pieces in local newspapers—particularly The Los Angeles Times and The San Francisco Chronicle.
2. Full-color brochures will be distributed at the various outlets where the watches are sold.

### 3.4 Sourcing

Grutzen Watches will only sell watches produced at its German factory, therefore additional sourcing of watches will not be necessary. However, the sourcing of parts for the manufacturing of the watches will play a constant role in the firm's profitability. Initially, most parts will be sourced from Eastern European suppliers, as the exchange rate is very beneficial for those purchasing with German Marks.

## Grutzen Watches

### 3.5 Technology

PC-based software will be used for accounts receivable/payable, inventory, purchasing, sales, shipping, and returns.

This business plan uses Business Plan Pro from Palo Alto Software, Inc. and it will be reviewed and updated as necessary.

### 3.6 Future Products

A luxury watch is the current main focus for a future product. Other future products could include alarm clocks, wall clocks, and clocks for luxury automobiles built in Germany.

### 4.0 Market Analysis Summary

The purchase of mid-level and high-level European watches has increased by 50 percent over the past two years. We expect the sales to continue growing, and to capitalize on this everpresent market for watches-people will always need and buy watches.

### 4.1 Market Segmentation

The market segmentation is divided into the leading target markets. The division reflects the differences in marketing strategy that will be used to target each different market.

- The "yuppies" who enjoy being the first on their block to have a new, "chic" and "hip" product.
- The "yuppies" who follow trends and buy products that everyone else has.
- Older adults who simply have good taste and a sense of style.
- Wealthier college students.
- Still fashionable senior citizens.

### 4.2 Industry Analysis

The watch industry, particularly the upscale markets, is growing faster than ever. Potential watch buyers are willing to spend moderate to high amounts on watches because they can make the customer look good-and hence feel good about themselves. In addition, Grutzen Watches will be built to last a lifetime-battery replacement every ten years will be the only necessary maintenance, therefore customers will see the inherent value in the watches.

The upscale niche market that Grutzen Watches has targeted is competitive because of the competitors and the discerning consumers it serves. However, the competition is based more on quality than price unlike the discount market.

### 4.2.1 Industry Participants

The upscale watch industry is currently in a growth period, so now is an ideal time for entry.

### 4.2.2 Distribution Patterns

Henry Winster will distribute the watches to Los Angeles and San Francisco outlets from his residence in Los Angeles.

- The cost of marketing the new product is expected to be the biggest challenge for Grutzen. The initial use of Henry Winster's facilities as a distribution channel will allow for cost savings.
- The lack of an existing recognized brand name will be an initial problem, but in a few years Grutzen Watches intends to have achieved powerful brand equity-allowing it to rely on, and succeed because of its brand name.

### 4.2.3 Competition and Buying Patterns

The leading competitor is Swiss Army Watches.
Consumers often only buy a new watch every 5 to 10 years, yet they purchase them often as gifts. Therefore, advertising will be increased during the Christmas holiday season.

The intended retail outlets are full price and full service, therefore Grutzen will not need to use an extreme price penetration strategy to gain a foothold in the market.

### 4.2.4 Main Competitors

Our main competitor is Swiss Army Watches. Our next closest competitor is Tag Heuer. Both of these firms have strong brand equity, but there is room in this market for a new company as brand loyalty is not high on potential consumers' reasons for purchasing.

### 5.0 Strategy and Implementation Summary

Grutzen Watches' strategy is to serve niche markets of the watch industry. It will capitalize on the German engineering and manufacturing used to build the watches. There are many untapped potential markets that desire high-quality goods, but do not think they can afford them or do not know where to purchase them. Grutzen Watches' marketing strategy will alleviate this problem.

## Grutzen Watches

### 5.1 Marketing Strategy

The marketing strategy will focus on two segments:

1. The company will benchmark the objectives for promotion, outlet selling, and personal selling.
2. The marketing budget will be $\$ 36,000$ per year.

### 5.1.1 Pricing Strategy

The pricing strategy will be to initially undercut our main competitors by $10 \%$, using a market penetration strategy. Then, pricing will be adjusted to be directly competitive with the other major competitors.

### 5.1.2 Promotion Strategy

Promotion will be initially spearheaded by public relations because of its low cost, and then through advertising once the company begins to increase cash flow to an acceptable figure.

### 5.2 Sales Strategy

Grutzen's sales force will consist of Henry Winster and two freelancing sales representatives. Order processing will be achieved through communication between Henry Winster in the U.S. and Franz Grutzen in Germany.

### 6.0 Management Summary

Grutzen Watches is currently not hiring any more employees. The decision has been made to postpone further hiring until the company begins to succeed.

After approximately one year, two employees will be added to the current six.

### 6.1 Organizational Structure

Grutzen Watches is split by both location and functionality. The production division is located in Germany where the factory is, and run by Franz Grunster. The sales and marketing, and finance and administration divisions are located in Los Angeles and are run by Henry Winster and Walter Young.

### 6.2 Management Team

Franz Grutzen: president, founder, and head of production department. Grutzen was president of production at Swiss Army Watches before he decided to return to his native Germany to start his own company. He graduated from the University of Frankfurt, and received an MBA at The University of Paris at Sorbonne. Forty-eight years old, no children.

Henry Winster: head of american division and sales and marketing division. He has worked and co-owned Wright and Winster, an advertising agency, for fifteen years. BA from USC, MBA from Stanford. Fifty-six years old, three children.

Walter Young: vice president of american division. He was previously vice president of operations at Greentree Sports in Phoenix, AZ. He received his BA from Emory University and his MBA from UCLA.

## Grutzen Watches

### 6.3 Management Team Gaps

The following important gaps exist:

- The present team has little sales experience.
- There is no current in-house designer-this should be corrected within a year.
- There is no international manager.

### 6.4 Personnel Plan

The personnel plan calls for adding two employees by the end of the first year for a total of eight. After the second year, employment is expected to increase by another four. These new employees will go into production and sales.

Table: Personnel

| Personnel Plan |  |  |  |
| :--- | ---: | ---: | ---: |
|  | 1999 | 2000 | 2001 |
| President | $\$ 72,000$ | $\$ 77,000$ | $\$ 82,000$ |

| Total People | 0 | 0 | 0 |
| Total Payroll | $\$ 296,400$ | $\$ 323,000$ | $\$ 349,000$ |

### 7.0 Financial Plan

Growth will be supported by cash flow and owner investment. This will keep initial growth slow and manageable, and will allow the management to have complete control over the firm.

## Grutzen Watches

### 7.1 Important Assumptions

Grutzen's financial plan relies on several important assumptions-most of which are shown in the following table.

The key assumptions are:

- Sufficient access to capital.
- Steady economy without a major recession.
- No unforeseen drastic technology changes.

Table: General Assumptions

| General Assumptions |  |  |  |
| :--- | ---: | ---: | ---: |
|  | 1999 | 2000 | 2001 |
| Plan Month | 1 | 2 | 3 |

| Other | $0.00 \%$ | $0.00 \%$ | $0.00 \%$ |
| Calculated Totals | $\$ 296,400$ | $\$ 323,000$ | $\$ 349,000$ |
| Payroll Expense | $\$ 533,000$ | $\$ 653,500$ | $\$ 757,500$ |
| Sales on Credit | $\$ 1,026,206$ | $\$ 1,138,614$ | $\$ 1,305,875$ |
| New Accounts Payable | $\$ 481,000$ | $\$ 521,073$ | $\$ 635,756$ |

### 7.2 Key Financial Indicators

- Keeping average collection days at 30 days or below is very important as this could become a major cause of cash flow problems for the first year.
- Gross margins must remain above $55 \%$.
- Variable costs must not exceed $\$ 80$.
